**Subject:** Re: ABST

Not at this time we should keep a record of all ABST paid and we can reclaim it from the government. I will continue to work with tax compliance dept for a way out satisfactory to both sides. At this time the imports are the easy ones to deal with because it has no applicable taxes as yet

Subject: ABST

With all the contracts and local purchasing for the campus, is there any documentation we can provide to suppliers that would eliminate the need for us to be billed for ABST, satisfy their tax commitment to the government and eliminate all the paperwork required by us to get the rebates from the government?

Corey
